

Gardenscapes Company Profile

Gardenscapes Landscape Centre is a family owned, local business, providing quality landscape and nursery supplies to retail and trade.

Our motto is Delivering Lifestyle Solutions.

We are situated on 10 acres on Oakey Flat Road in Morayfield; this enables us to have an extensive range of quality products with displays and examples on how to use the products. Access is a breeze with ample parking and no awkward reversing for those with trailers.

Gardenscapes originated in March 2006 when we purchased a run-down business and since then have grown and transformed it into a sustainable and reputable Landscape centre.

We have now evolved into a thriving concern, with over 5,000 Garden Club members who get access to an informative quarterly newsletter, discounts and the use of our courtesy trailer.

Gardenscapes Trade division currently services over 280 trade clients, from Multi-Arm construction companies, Government bodies, Schools, Age Care facilities and right through to the sole-operator.

We maintain an extremely high level of return business and customer loyalty by fostering a symbiotic relationship with our trade customers to better understand their business and deliver specific solutions for them.

Gardenscapes are fully committed to engaging environmentally sympathetic and sound strategies to create a balance within our business. We are selective in the recycled products we utilize to ensure that not only are we being environmentally friendly, but our quality standards are not compromised.

We are actively involved in the local community. Gardenscapes have donated both time and products to associations such as Morayfield Scouts, Caboolture Community Centre and local schools.

Gardenscapes vision for a successful business is the steadfast resolve to build the business with some old fashioned beliefs and values; with the objective being to become the best service and quality oriented landscape centre in the area by consistently providing a clean & tidy landscape centre with personal customer service, quality products and a guarantee on our quantities and 'on-time' deliveries.

As a team we have come to the understanding that the sum of the parts is greater than the individual; if we work together towards a common goal and focus we all win – customers and team members alike.

We encourage each team member to treat customers as they would want to be treated.

- personalized, reliable service
- quality products
- delivery guarantee
- delivering lifestyle solutions

By supplying professional, friendly, knowledgeable and helpful service we will make a difference to the people we serve – be it trade or retail.

The end result being an informed and satisfied customer.
